'Outstanding' SIAMS 2017

PE & Sports Funding Grant

Proposed Spending 2020- 2021

From September 2013 the Government provided additional funding to schools to improve the provision of physical education and sport in primary schools. The Government is not dictating how schools should spend this money however schools will be accountable for how they spend their additional funding. The school receives a total of sports premium funding £17,740. The school also carries forward some funding from the academic year 2019-2020 due to the Covid pandemic.

In the academic year 2020- 2021 the funding will be spent in the following ways:

- Hiring specialist qualified sports coaches to teach gymnastics with a focus on developing gross motor skills in the EYFS alongside the teachers and support staff. This significantly impacts on the number of children working at ARE in their physical development which is low on entry (33% of the cohort at the ARE) and this will support pupils in further enhancing and developing these skills so that this does not continue to be a barrier to children achieving a Good Level of Development at the end of the EYFS.
- PE subject leader to work closely alongside all teachers to ensure a broad, balanced and progressive curriculum is planned and delivered across the school, following the progression plan for Physical Development. Whole school CPD for PE to be delivered to increase staff's knowledge, understanding and skills in the teaching and assessment of PE and to ensure that there is clear progression across the school. Ensure that continuing professional development opportunities are provided for all teachers and support staff through regular training and joint teaching led by coaches and the PE coordinator. This will improve the staff's knowledge, understanding and skills in teaching PE.
- Developing an outdoor classroom which will be a base for outdoor learning. This indoor/outdoor space can be used all year round for the delivery of outdoor lessons and will be equipped with high quality natural resources and provision. This can also be used as a lunch space, facilitate nurture/Thrive groups and after school clubs such as The Woodland Watch.
- Further build upon the use of outdoor spaces for nurture provision, including the allotment, guinea pig garden, meadow/art space and spiritual garden. Further develop this provision by developing and using a small section of the EYFS outdoor area as a small coup for chickens. This will allow children to develop a good understanding of where their food comes from and will teach them how to care for the chickens. Eggs will be used in cooking alongside produce from the allotment.
- Develop a multipurpose space on the playground solving the drainage issues and providing a good surface for the teaching of PE and a space that can be used for games at lunch and playtimes. The space will be marked for multiple purposes. Staff will receive training on how to maximise the multi-use pitch.
- Providing safe storage for children's bikes and scooters promoting an active start and end to the school day.
- To provide an active and healthy start to the day for pupils through exercise and healthy eating through the school's before school kick start club led by one of the school's HLTAs.
- Continue to ensure that accurate assessment of gymnastics skills is in place to ensure pupils are progressing across the British Gymnastic Association stages and are achieving well.

OFSTED will evaluate the impact that the sport's funding has had on pupils' lifestyles and physical well-being.

They pass this way only once so we should aim to litter their pathway with quality experiences

Please see below for a detailed plan, including costings, of the sports premium spending for 2020 - 2021.

Spending 2020 - 2021	Aim/Objective	Cost
External gymnastics coach to work with EYFS developing gross motor skills.	To ensure that staff are confident in the delivery of gymnastics including the use of specialist equipment and for specialist sessions to be delivered at the local gymnastics centre. To further develop gross motor skills in the EYFS which are low on entry to school.	x 2 afternoons £100 per week Annual £4000.
PE lead release time for monitoring, joint coaching. CPD for staff delivered on PAL (Physically Active Learning)	To ensure that the progression plan designed by the subject leader for PE is being followed and that teaching of skills in PE is sequential and progressive. To ensure new teachers have a robust induction which includes joint teaching alongside the PE leader. To increase physical activity exploring PAL.	£500 £1000
Development of an outdoor classroom teaching space	To develop an outdoor learning space that can be used in all weathers to deliver lessons beyond the main classroom. This includes use at lunchtimes and playtimes and for after school clubs such as woodland clubs/forest schools. To resource the outdoor classroom with natural materials and resources required for the delivery of lessons including provision for the EYFS.	Capital project Resourced through outdoor learning aspect of premium £3,000 Training for all staff £2,000
Further development of smaller learning spaces to further facilitate outdoor teaching.	To develop outdoor teaching spaces further building upon the existing outdoor spaces including the allotment, Guinea pig garden, meadow and spiritual gardens to enhance and further develop outdoor learning for all years. Training for a lead member of staff to further develop learning outdoors possibly through the forest schools programme.	£1000 to further develop nurture space in EYFS including adding to the school allotment/GP garden. Outdoor learning training to be completed by a member of staff £1,500.
Develop the school playground further making this into a Multi-Use Games Area for PE teaching and for use at playtime.	To develop the schools sports provision including the school playground, solving the drainage issues and pools of standing water and installing a Multi-Use Games Area that can be used for outdoor PE teaching and for planned activities at playtime and dinner time.	£3,000 plus staff training £1000 £4,000 total.
Encouraging children to walk, bike or scoot to school.	To increase the number of children having an active start to the day by promoting walk, bike and scoot to school. Storage for bikes and scooters to be purchased to facilitate this.	£300
Kickstart before school club for each class on a weekly basis led by a sports coach.	To encourage pupils to arrive early to school and to be actively involved in physical activity and exercise at the start of their school day.	X 30 mins per week £500 Snacks- £300
Membership cost for British Gymnastics Association	To ensure pupils receive their proficiency award. To ensure that pupils are assessed in Gymnastics to the British Gymnastics Standard and are awarded the correct proficiency stage from UFS to end of KS1. To celebrate sporting achievements with parents at home.	£220 including badge cost.
